MegaSporeBiotic | 60 Capsule Bottle

MegaSporeBiotic is the first 100% spore-based, broad-spectrum probiotic clinically shown to improve leaky gut in just 30 days. Spore-based probiotics are considered much more effective than conventional probiotics on the market because they are designed to survive through the harsh gastric system, colonize, and increase microbial diversity in the gut. This unique all-spore formula effectively reconditions the gut by increasing microbial diversity and encouraging the growth of key health-promoting, commensal gut bacteria. MegaSporeBiotic boasts a 5-year shelf-life, does not require refrigeration, and maintains efficacy during antibiotic therapy.*

MegaPre

| 30 Servings

MegaPre is the first Precision Prebiotic supplement that can effectively diversify your gut microbiome without feeding potential pathogens. Prebiotics are essentially dietary fibers that cannot be digested or absorbed by the human digestive tract but instead feed the bacteria living in your gut. These complex fibers feed beneficial bacteria, but they can also be utilized by harmful bacteria. Research shows that the ingredients in MegaPre can help support a strong immune system through the production of short-chain fatty acids (SCFAs), which can subsequently stimulate intestinal cells to produce a protective compound known as \hat{I}^2 -defensin that can help to keep the gut microbiome in balance.

Dose Instructions

MegaPre (Powder): Ages 2+: Start with 1-2 scoop daily with or without a meal for 1 week, then increase to 1 scoop daily with or without a meal, or as directed by your

healthcare practitioner. Mix powder with 16 oz or more of cold water, or blend into your favorite smoothie. For children under 2 years of age, please consult with your healthcare practitioner.

MegaPre (Capsules): Ages 2+: Start with 3 capsules daily with or without a meal for one week, then increase to 6 capsules daily with or without a meal, or as directed by your healthcare practitioner. If child cannot swallow capsules, simply open capsules and empty contents into food or drink. For children under 2 years of age, please consult with your healthcare practitioner.

MegaMucosa | 30 Servings

MegaMucosa is formulated to REBUILD a healthy mucosal barrier. MegaMucosa contains dairy-free immunoglobulins clinically shown to support a healthy immune response in the mucosa and a state-of-the-art flavobiotic clinically shown to support microbial diversity and alleviate barrier dysfunction, otherwise known as leaky gut. The mucosal system is one of the most important immune barriers serving as the interface between the human body and the outside world. The dairy-free immunoglobulin concentrate supports healthy digestion, neutralizes environmental toxins, and helps to REBUILD protective intestinal barriers. MegaMucosa contains four key amino acids that play an important role in the production of intestinal mucosa include: L-proline, L-serine, L-cysteine, and L-threonine. These four amino acids contribute to thicker and healthier mucosal barriers.

HU58 High Potency Bacillus Subtilis

(High Potency Probiotic) | 60 Capsules

Bacillus Subtilis HU58 is a friendly bacterial spore was discovered in a healthy human gut. HU58 is a rugged spore that can withstand extreme pH levels, high temperatures, dehydration, antibiotics, pressure, radiation, and even the harsh environment of the digestive tract. It can also produce over 12 targeted antibiotics of its own, which makes it particularly effective at balancing gut flora. HU58 can be taken with MegaSporeBiotic to support; healthy gut flora balance, healthy digestion, healthy response to food, and healthy gut response in conditions with intestinal inflammation.

MegaQuinone | 60 Capsule Bottle

MegaQuinone is formulated with vitamin K2 playing a role in calcium and glucose homeostasis and is not found in sufficient quantities in the Western diet. Dozens of published clinical studies have shown that vitamin K2 halts bone mineral density loss, especially in older women and can reduce arterial calcification commonly known as plaque. Studies have also demonstrated the important role of vitamin K2 in supporting healthy cell turnover and mitochondrial function. Recent animal studies indicate that osteocalcin increases insulin secretion and sensitivity, reduces blood glucose, and decreases visceral fat in both genders, as well as enhancing testosterone production in males.

Mega IgG2000 | 120 Capsules

Mega IgG2000 is a dairy-free immunoglobulin concentrate that supports healthy digestion, neutralizes microbial and environmental toxins, while improving gut barrier function. Unlike other milk-derived immunoglobulins on the market, Mega IgG2000 is derived from bovine serum, making it lactose-free, casein-free, and β -lactoglobulin-free. This unique alternative to bovine colostrum supports a healthy mucosal immune system by decreasing unfavorable immune activation in the mucosal layer, lowering toxic burden and strengthening gut barrier function. The serum immunoglobulin in Mega IgG2000 has been the subject in over ten published human clinical trials on inflammatory and infectious bowel conditions.

MegaGuard | 60 Capsules

MegaGuard is a novel digestive aid that combines clinically-studied and highly concentrated licorice polyphenols, scientifically validated extractions of artichoke, and high potency ginger to promote normal digestion, regulate stomach acid, balance H. pylori levels, and reduce occasional digestive discomforts such as gas, bloating, and indigestion. When used in combination with other MicrobiomeLabs products, MegaGuard offers comprehensive gastrointestinal support from the stomach all the way to the colon. MegaGuard combines these three powerful herbs to provide unique and comprehensive digestive support, bowel regularity, and gastric protection. Bile production is stimulated, cholesterol levels are more balanced and gastric mucosa is protected. Benefits also include balancing H. Pylori levels, accelerating gastric emptying and soothing nausea.

Gut-Specific Fish Oil | 60 Capsules

Gut-Specific Fish Oil Supplement (formerly MegaOmega) is the most comprehensive, full-spectrum fish oil scientifically formulated to support a healthy gut microbiome with a superior ratio of EPA, DHA, and the “forgotten” DPA, as well as naturally-occurring metabolites called pre-resolving mediators (PRMs) shown to support a healthy immune and inflammatory response. MegaOmega™ is specifically formulated with higher EPA content than DHA content in order to support a healthy gut. EPA is the most powerful omega-3 for supporting gut health and is well-documented for its ability to protect intestinal mucosa and reduce oxidative damage in the gut. DHA is most known for its beneficial impact on brain health. DPA, also known as the “forgotten fatty acid,” has the ability to increase EPA and DHA tissue status and also supports a healthy gut by reducing pro-inflammatory cytokines and macroscopic damage.

INGREDIENTS: Highly Refined and Concentrated Omega-3 Marine Oil (one or more of anchovy, squid, sardine, herring, and mackerel), Capsule Shell (gelatin, glycerin, purified water), Natural Lemon Flavor, Natural Mixed Tocopherols. **Contains Fish (anchovy, sardine, herring, and mackerel).**

FODMATE | 120 Capsules

FODMATE is specifically formulated with a one-of-kind blend of enzymes to help support the breakdown of FODMAPs in food. FODMAP stands for Fermentable Oligosaccharides, Disaccharides, Monosaccharides, and Polyols. FODMAPs are fermentable fibers such as sugar alcohols and "short-chain" carbohydrates that are poorly absorbed in the digestive tract. You can use this enzyme supplement in tandem with a short-term low FODMAP diet while identifying and addressing the root cause of why usually beneficial nutrients like FODMAPs are causing your digestive upheaval. FODMATE helps overcome occasional digestive issues without the need for a complicated, restrictive diet and promotes continued consumption of nutrient-dense, antioxidant-rich, plant-based foods. This product improves restrictive diet compliance by minimizing frustration the challenges of a FODMAP diet as well.

Does Instructions:

Take 2 capsules with a meal

Note: This enzyme blend is intended for short-term use while still consuming a diversified diet. It is not intended to be used long-term but instead as part of a gut restoration program. It is designed to break down fermentable (i.e., prebiotic) fibers, it should not be taken alongside prebiotic supplements (including MegaPre).

MegaMune | 90 Servings

MegaMune supports the precise function of both the innate and adaptive branches of the immune system using a triple-action formula that can help maintain healthy immune function for any time of year. MegaMune ingredients have antioxidant properties and help diversify the gut microbiome that helps balance both adaptive and innate health. The added combination of green tea extract and fruit polyphenols promotes microbial diversity within the powerful gut microbiome. MegaMune provides comprehensive immune support that targets the immune system both on the cellular level and within the microbiome to support a solid immune foundation.

MegaViron | 90 Capsules

MegaViron is a comprehensive immune supplement formulated with potent herbs possessing antioxidant properties for seasonal immune support. MegaViron offers a well-rounded approach to immune support because each herbal ingredient helps maintain a specific set of cellular tasks and is designed to be taken as a 15-day protocol to maximize short-term efficacy whenever you need it most. Healthy immune function involves a balance of inflammatory and anti-inflammatory cytokines. The combination of herbs helps support this balance in the immune system.

MegaCidin | 60 Servings

MegaCidin is a next-generation throat spray that contains a unique combination of ingredients clinically proven to support overall immunity. MegaCidin harnesses the power of probiotic spores along with the highly effective herbal mixture known as Biocidin[®]. The probiotics in MegaCidin, *Bacillus subtilis* HU58, and *Bacillus coagulans* (SC-208), are scientifically shown to support a healthy immune system by reducing inflammatory cytokines and producing protective compounds like \hat{I}^2 -defensin. Probiotic throat sprays are shown to support healthy oral immunity in children. Combined with the immune-supporting functions of *Bacillus subtilis* HU58 and *Bacillus coagulans* SC-208, MegaCidin is a preferred, all-natural remedy for healthy immune function.

Fidospore Probiotic | 30 Capsules

Probiotics for pets have remarkable abilities to support digestive health, particularly in dogs, and work with the animal's immune system to maintain overall function. Ingredients in this formula have been used to treat dogs with digestive symptoms like constipation and diarrhea, as well as dogs infected by parvovirus. Research highlights that probiotics like FidoSpore are effective, safe, and a cost-effective way to keep your pet healthy. As an added bonus, FidoSpore is enhanced with defatted grass-fed beef liver extract added for flavor and aroma.

HoloZyme | 180 Capsules

HoloZyme Activated Enzymes reduce occasional gut related complaints including gas, bloating, loose stools, undigested foods, tummy pain, and cramping. Digestive enzymes are special molecules that speed up the breakdown of food into usable nutrients. When properly activated, some of these enzymes are absorbed into the body and help support a healthy immune system. This formula is fast acting with a 100% effective range of pH 1.7- pH 11.0. HoloZyme is an all natural patent-proven formula with zero fillers, clinically supported by several research studies.

Fibrenza

Available in 240 Capsules or 60 Capsules

Fibrenza is an advanced blend of 13 powerful systemic enzymes that are specifically formulated to supplement the body's ability to dissolve fibrin, cleanse the blood, detoxify the body, and maintain a healthy inflammation response. These functions are the cornerstones of many anti-aging regimens. Fibrenza has been formulated to provide maximum body-wide benefit by using the highest quality pharmaceutical grade enzymes and technologically advanced delivery system, without the use of phthalates or harmful chemicals and solvents.

H2 Elite Molecular Hydrogen

Available in 30 Tablets or 60 Tablets

Molecular hydrogen tablets produce millions of tiny nanobubbles that flood the body with nature's purest antioxidant. Mild yet powerful, it can support metabolism, energy, detox, cognitive health, and a balanced inflammatory response. At 5x Higher Concentration H2 Elite, offers a profound 10ppm of molecular hydrogen per 500mL of water. Unlike many hydrogen tablets, H2 elite does not need a closed container and dissolves in less than two minutes for fast-acting, free radical quenching replenishment.*

Magnesium L-Threonate | 30 Pouches

Cymbiotika's Liposomal Magnesium L-Threonate was developed by a team of scientists at MIT which has been shown to increase brain magnesium levels much higher than any other form of magnesium. Magnesium is an essential mineral that is required for 80% of the body's metabolic functions. In the United States, approximately 65% of all adults are magnesium deficient. Magnesium deficiency contributes to many chronic conditions including heart disease and loss of cognitive function.

- Magnesium L-Threonate may help with the following:
- Boost brain power
- Balance mood and calm central nervous system
- Improve memory

Total Gut Restoration

[LEARN MORE](#)

Total Gut Restoration is an advanced 3-month protocol to support and restore gut health. A triple-threat of three unique supplements works to support a healthy gut, including maintaining a healthy and harmonious microbial ecosystem, promoting a protective gut barrier, and supplying precision bacterial species that support balanced immune and digestive function. Indeed, a healthy gut is a necessary foundation for supporting a healthy immune system.

MegaSporeBiotic™

- MegaSporeBiotic™ **RECONDITIONS** the gut
- Helps maintain a healthy, thriving gut microbiome
- 100% spore-based, broad-spectrum probiotic
- Blend of 5 Bacillus probiotic spores shown to maintain a healthy gut barrier and immune function
- Contains dormant Bacillus probiotic spores that survive the harsh acidic environment of the upper gastrointestinal tract, becoming active and colonizing the large intestine once they arrive
- Promotes microflora diversity and maintains key health-promoting, protective gut bacteria
- Supports the immune system's protective responses that prevent colonization and invasion by pathogens
- 5-year shelf-life with no refrigeration needed

BiomeFx Functional Microbiome Analysis

BiomeFx is a Functional Microbiome Analysis that measures the balance of pathogens (potentially harmful microbes) and beneficial microbes that make up your microbiome, and how your microbiome compares the U.S. healthy population. It also reports the potential functions of microbes to better understand how your microbiome could be impacting your symptoms and health concerns. With each finding, you are provided with nutrition, lifestyle, and supplement recommendations that you can immediately implement to improve the balance of microbes in your microbiome.
